

The Ultimate STUDENT APP GUIDE

There are countless apps available on phones, tablets and even smart watches to help with your studies. Let's take a look at the apps you should be downloading right now.

For Organising Your Study Time

Todoist

Available on

What is it?

An app that allows you to **schedule** and **organise** reminders and notes.

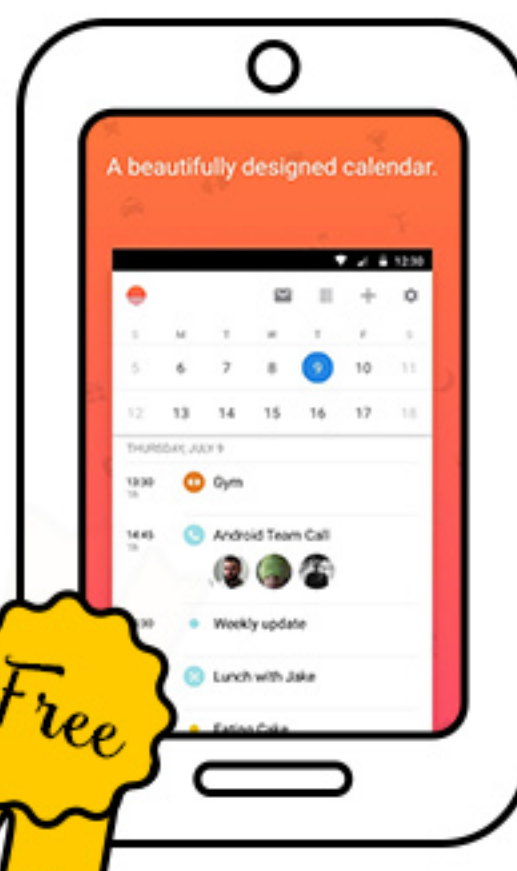

Features

- Place tasks into '**projects**', so you can break up your study into sections - giving yourself suitable time to complete each part.
- Organise your **weeks** into tasks.
- Sync** your events to compatible wearables.

Sunrise Calendar

Available on

What is it?

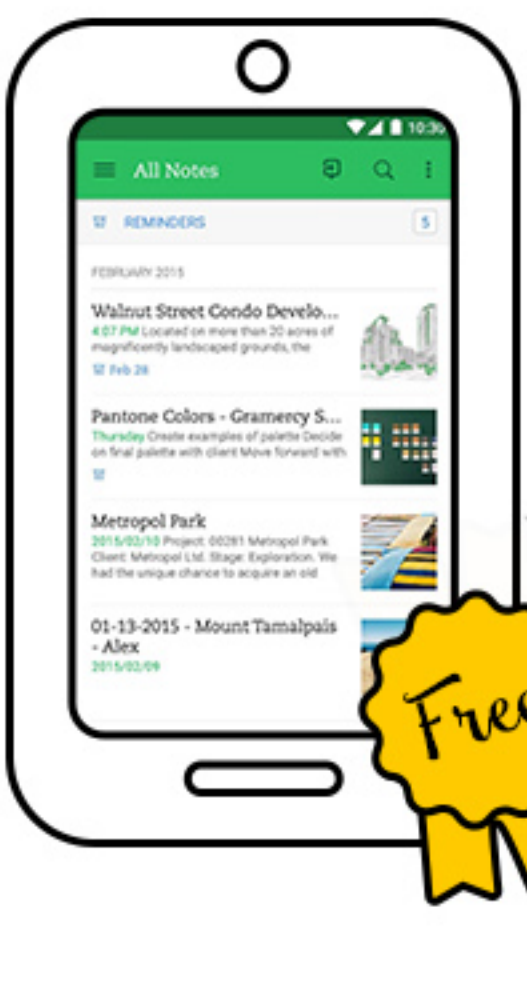

A free **calendar** app made for Google Calendar, iCloud and Exchange.

Features

- Automatically syncs** between your phone, tablet and computer.
- Connects with all your apps** like Facebook, Evernote, Foursquare, Triplt, Todoist and Trello.
- Includes **Meet**, a keyboard that lets you select available time slots in your calendar and send them without leaving the app.

For Note Taking

Evernote

Available on

What is it?

Is a **cross-platform**, freemium app designed for note taking, organising and archiving.

Features

- Offers quick ways to **jot down important information** and **highlight** specific text.
- Save documents, images** and **links** that you find online.
- Sync notes** to your laptop or tablet from those on your phone.

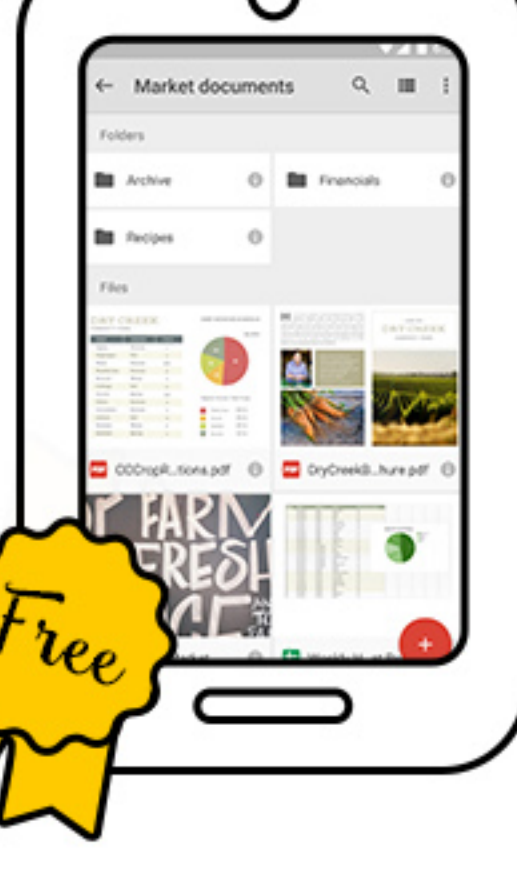

For Storing Files

Google Drive

Available on

What is it?

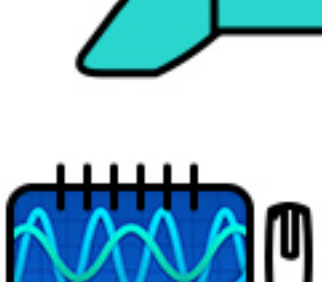

An app that **stores all your files online** that can be accessed from any smartphone, tablet or computer.

Features

- Share files and folders** and collaborate with others.
- Use your **device camera** to **scan** in paper documents.
- Backup your files** and access them from anywhere.

For Calculations

Free Graphing Calculator

Available on

What is it?

The app is a complete **graphing calculator** that offers hundreds of functions for any subject.

Features

- Includes a **scientific calculator**.
- Multiple** graphing capabilities.
- A **unit converter** and many more functions.

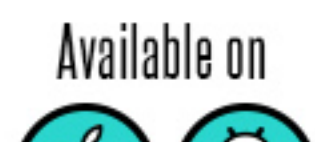

For Citations

EasyBib

Available on

What is it?

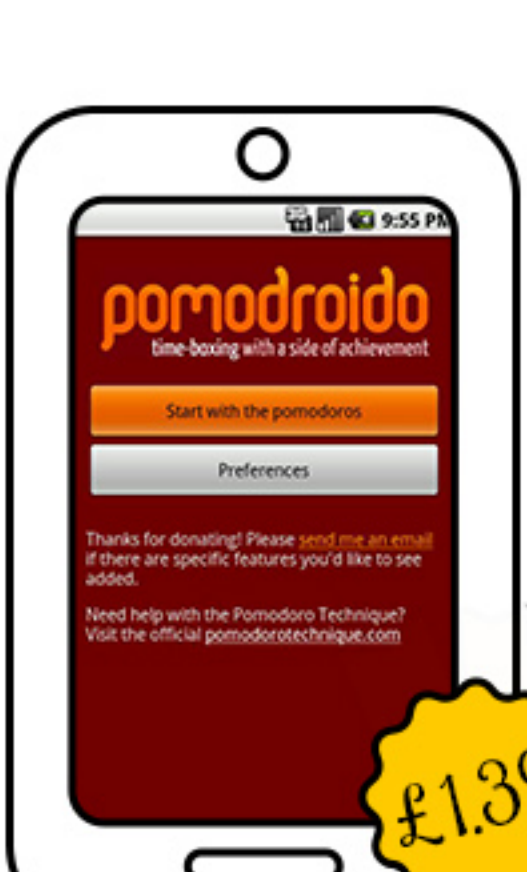

An app that allows you to **automatically create citations** for your **bibliography** with over 7,000 citation styles.

Features

- Instantly create citations by **scanning book barcodes** with your phone's camera.
- Use the **search tool** to create citations for books and websites.
- Export to email** so you can send your citations to your inbox quickly.

For Revision

Pomodoro

Available on

What is it?

An app that helps you **boost your productivity** using the Pomodoro Technique™, one of the most effective time management methods in the world.

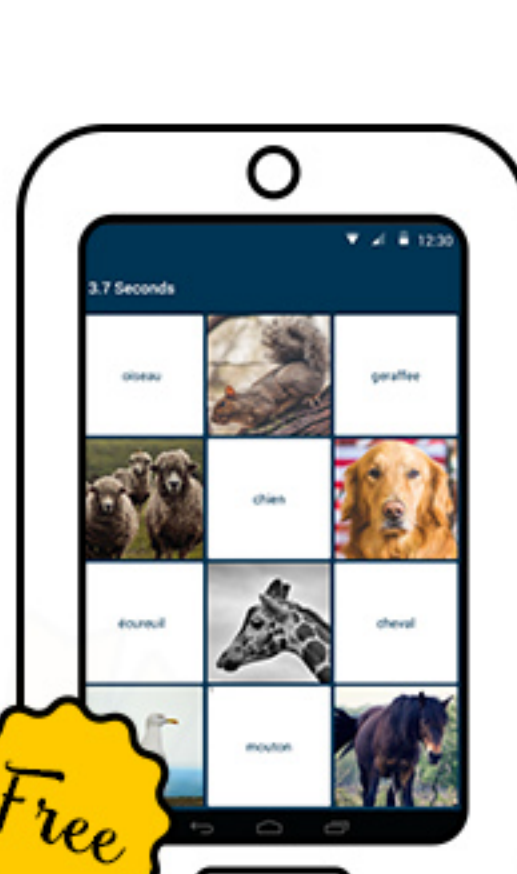

Features

- Allows you to **set a timer** for your study.
- It **counts down 25 minute** (or a custom time) time periods for you to revise in.
- Also gives you space for **short breaks**.

Quizlet

Available on

What is it?

Often called the '**flashcard app**', it contains free study aids on almost any subject.

Features

- Provides **quizzes and games** to help with revision.
- Create your **own flashcards**.
- Listen to **automatic pronunciations** in 18 different languages.
